Terms of Acceptance

Mindset Chiropractic has only one goal. It is important that each patient understands both the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

We do not offer to diagnose or treat any disease or condition other than vertebral subluxations. However, if during the course of chiropractic spinal examination, we encounter non-chiropractic or unusual findings, we will advise you. If you desire advice, diagnosis or treatment for those findings, we will recommend that you seek the services of another health care provider.

Regardless of what the disease is called, we do not offer to treat it. Nor do we offer advice regarding treatment prescribed by others. Our only objective is to eliminate a major interference to the expression of the body's innate wisdom. Our only method is specific adjustments to correct vertebral subluxations.

All questions regarding the doctor's objectives pertaining to my care in this office have been answered to my complete satisfaction. I therefore accept chiropractic care on this basis.
